Foreword

This section of the manual will help you when ordering parts and serves as a reference for assembly/disassembly when used in conjunction with the Maintenance Section procedures.

About this section

Chapters 20 to 27, listed on the front sheet, cover the major areas of the machine. Some of the more popular options such as Gutter Broom Rotatilt, Ultra High Dump and Front Spray Bar are also covered in these chapters. Other more specialized options will be found in Optional Equipment, Chapter 35.

The Table of Contents on page 1 of each chapter locates the page a particular illustration or parts list is on.

Chassis Related Parts

The items listed below vary depending on what chassis the Madvac sweeper equipment is mounted to. If any parts for these areas are required, contact the Madvac Parts Department quoting the machine serial number on the plate fitted to the subframe crossmember below the body rear door.
